To the Librarian
The Long Island Historical Society
130 Pierrepont Street
Brooklyn, New York

Dear Madam:

Will you kindly advise whether your Library received a gift from Mr. Benson or his sister of the Numismatic books in his library? I am under the impression that I have been told that they were presented to your Library a number of years ago. Is this correct? If so, I should appreciate a brief word as to what the collection comprised, if you are able to give it to me.

Very truly yours,

Secretary.

To
Mr. Sydney P. Noe,

Dear Mr. Noe:

In answer to yours of the 5th would say that in 1910 we received between 250 and 300 volumes of Numismatic books from the library of Frank Herman Benson, they being presented to us by his sister Miss Mary Benson. Many of them related to Greek coins, and others to coins in general — The collection included a set of the Numismatic Chronicle 1836–1906.

We would be glad to have you come over and see the collection if time permits.

Yours very truly
Emma Toedteberg
